

Dear Sirs,

The Department of Statistical Sciences of the University of Padova, Italy with EAPS - European Association for Population Studies organize:

*EPC 2020 - European Population Conference
Padova - Italy, 24-27 June 2020*

www.epc2020.it

#epc2020

Assuming that the Conference themes are of interest for your associates and audience, and in order to provide maximum visibility to EPC2020, we would kindly ask your cooperation, such as to share the details about the meeting and the website link www.epc2020.it on your communication tools, such as your website, in social networks and through newsletters to your associates,

Key points of the Conference are:

- ✓ EPC is the biggest European Conference on Population studies: **about 1000 attendees are expected**,
- ✓ Many parallel sessions covering different thematic areas, such as **MIGRATION, AGEING, LONGEVITY, HEALTH, FERTILITY, FAMILIES AND HOUSEHOLDS** will develop an interesting and up-to-date scientific program.
- ✓ **Complementary disciplines networking opportunities**: besides demography, several disciplines are playing a key role: Econometrics, Sociology, Anthropology, Epidemiology, Geography.
- ✓ **Gain new insights on population studies and research**: attending keynote and session speaker presentations is a great chance to learn and develop skills.
- ✓ A dedicated **exhibition area** will be set up for the whole Conference so that the networking opportunities will be encouraged as much as possible!

Waiting for your reply and any suggestion for a fruitful cooperation, feel free to contact us for any further requirement you might have.

Best regards,

EPC 2020 ORGANIZING SECRETARIAT
