Additional Professor
Department of Biostatistics and Health Informatics
Sanjay Gandhi Postgraduate
Institute of Medical Sciences//Lucknow, Uttar Pradesh,
India-226014
Contact No. +91-9452196497

Area, Professional Experience and Training

Area of Interest : Biostatistics, Mathematical Demography, Stochastic Modelling, Survival Analysis.
Research Experience : 17 years
Research Scholar - Statistics, Banaras Hindu University during September 2007- 01 October 2012.
NET-JRF (UGC) - Population Studies, June 2010.
Assistant Professor - Statistics, RGSC-BHU, Mirzapur, Uttar Pradesh during 03 October 2012- 18 March 2013.
Assistant Professor - Statistics, CURaj,Kishangarh, Rajasthan during 01 April 2013 - 26 July, 2013.
Assistant Professor - Statistics, Allahabad University,Allahabad, Uttar Pradesh in 29 July 2013 - 04 Jan 2017.
Assistant Professor - Biostatistics, SGPGIMS, Lucknow, Uttar Pradesh in 05 Jan 2017- June 2021.
Assistant Professor - Biostatistics, SGPGIMS, Lucknow, Uttar Pradesh in July 2021- June 2023.
Additional Professor - Biostatistics, SGPGIMS, Lucknow, Uttar Pradesh in July 2023- till date.

I love to analyse and visualise data through R software and teach Statistics/data analysis especially to the applied user. I pursued Ph. D. in Statistics during 2007-2012 from Banaras Hindu University, Varanasi, India. Worked in the area of Stochastic Modelling of Human fertility (Mathematical Demography). After teaching in the core department of Statistics at Central University of Rajasthan and Allahabad University, switched to Biostatistics Department, SGPGIMS, Lucknow.

The Journey changes, from theoretical Statistics to applied statistics since 2017, also in the field of medicine. Started learning the basics of biostatistics, although seems running parallel to statistics with justification. Data Storage, networking, security, HIS Software management is also an integral part of my work now.

While all of this was happening, at the back of my mind, I had come to realize What I truly enjoyed - and what gives me a sense is to motivate/educate young scholars in the field of Statistics and data analysis. If elected, will work hard with IASP executive counsel to promote Population Studies in our Country.

Place: Lucknow
